Experience

Product Manager – Devices (POS and Speakers)

BharatPe – Resilient Innovations Pvt. Ltd.

BharatPe provides digital payment solutions and financial services to small offline merchants and consumers.

Handled payments and device business for BharatPe. Accountable for product conceptualization, solution design, writing specifications documentations, improving UI/UX, charting roadmap, feature prioritization and planned execution.

- Led end-to-end product lifecycle for BharatPe One POS, from market fit analysis to scaled deployment and monetization, enabling frictionless in-store payments across India.
- Conceptualized and launched Payment Timelines, a transparency-driven feature in the merchant app, empowering merchants with settlement visibility and significantly reducing ticket volumes.
- Deployed compliance-led device onboarding enhancements through real-time geo-location capture, MCC-based restrictions and integrations with internal Financial Risk Model enriching BharatPe’s fraud detection stack.
- Introduced monetization stream through low usage charges on dormant devices, boosting reactivation and asset utilization.
- Initiated auto-return lifecycle for redundant hardware, simplifying logistics and improving experience for merchants with free returns and upgraded POS systems.
- Implemented Logistics Waterfall models over forward and reverse devices orders to reduce delivery/pick-up turnaround time.
- Currently administering development of Interoperable Speaker—an industry-first innovative feature to intercept competitor’s UPI-based payments and announce them on BharatPe Speaker, abolishing the need to maintain multiple speaker.

Key Achievements:

- Growth Initiatives:** Scaled BharatPe One POS to **100K+** devices accounting **~40%** of Card TPV, maintained **70%+** active rate.
- Customer Empathy:** Reduced Voice of Customer (VoC) from 800 to under 70 through Payment Timelines implementation.
- Compliance Adherence:** Achieved **>90%** geo-compliance in 3 months, creating stronger anti-fraud foundations.
- Customer Focused Solutions:** Spearheaded initiatives such as the Logistics Waterfall Model, Dynamic TAT, and Vendor-based CPV, leading to a reduction in logistics-related monthly escalations from 32% to **12%**.
- Reduce Product Proliferation:** Reduced hardware redundancy by decreasing dual-device merchant usage from **85% to 7%**.
- Ground up Launches:** Piloted Interoperable Speaker feature with **10%** adoption, on path to full-scale rollout.
- Government Subsidies:** Integrated merchant consent to avail government led PIDF subsidies to enhance digital penetration.

Rewards & Recognitions: **BharatPe Rockstar Award** (Jan 2025) for prioritization of features involving customer empathy.

6+ years

Feb 2024 – Present

Senior Product Manager – US Stocks Investments

INDmoney – Finzoom Investments Advisors Ltd.

INDmoney is a super-app for investment tracking, financial health management and cross-border investments.

Responsible for the development and management of the US Stocks Investment product at INDmoney super-app. The OKRs entailed product conceptualization, optimizing user experience, partner management and driving success and growth of the product offering.

Aug 2021 – Feb 2024

2 years 6 months

- Built INDmoney's global investing stack, including US Stock Investments and RBI-compliant remittance systems, from 0→1 into a **500K+** user product, managing millions in monthly transaction value and cross-border remittances.
- Led end-to-end product strategy, user experience enhancements, and regulatory integrations to build robust cross-border remittance infrastructure, streamlining international investment for retail users.
- Orchestrated integration of multi broker-based APIs, enabling end users to trade US stocks seamlessly within the platform.
- Introduced features like SIPs for US Stocks, premium subscription plan, platform fee alongside Insta Funding to enable real-time dollar liquidity, promoting frequent investing behavior.
- Devised document retrieval mechanisms to ensure compliant workflows, regulatory adherence and minimizing risks.
- Onboarded SBM Bank and Federal Bank for enabling cross border remittance, facilitating smoother KYC and fund flow.
- Led cross-functional collaboration with internal and external stakeholders, including banks, brokers, and third-party vendors, fostering strong relationships, ensuring smooth operations and enhance the product offering.
- Led the development of compliant taxation documentation for U.S. investors, ensuring alignment with Indian regulatory standards and simplifying cross-border tax filing processes.
- Conducted market research and competitive analysis to understand customer pain points identify market and industry trends, led to the identification of new business opportunities and a significant shift in quarterly roadmap.

Key Achievements:

- **Product Growth:** Grew monthly remittance volume from **<\$1K to \$60M** and active investor base to 500K+.
- **Partner integrations:** Enabled seamless onboarding for **500K+** investors by integrating **multi-broker** with **multi-bank** infrastructure while ensuring full KYC and AML compliance for US investment accounts.
- **New Payment Methods:** Introduced UPI Collect and net-banking based deposits, leading to **20%** rise in funding flow efficiency.
- **Product-Market Fit:** Cut remittance settlement time from 5–7 business days to **instant**, increasing investor confidence.
- **Product Scaling:** Captured **34%** of India's outbound equity investment based remittance market via developed product.
- **Feature-led Growth:** Drove **15% lift** in trades via Insta Funding and **20% SIP** adoption across investor base.
- **New Document Retrieval Methods:** Enabled Smart Routing for compliance document retrieval through integrated Account Aggregator, depositories (CDSL/NSDL) based CAS documents as well as mail-based syncing.

Rewards and Recognitions: **Remittance Rainmaker (2023)** for scaling remittance revenue and reducing latency in fund transfers.
